dormiente[®]
THE **GREEN** WAY TO SLEEP

SLEEP WITH **SYSTEM**

All-round healthy and restorative sleep means more than just an optimal mattress. Maximise the potential of your mattress with the combination of mattress, slatted base, pillow, duvet and bedding that is perfectly adjusted to your needs. This ensures you'll get the best sleep – night after night!

dormiente has been producing mattresses and bedding made of pure natural materials since 1988. Because nature offers everything you need for healthy, restful sleep, we don't use any plastics or synthetics. Instead, we produce high-quality ergonomic, natural products that are rigorously and regularly tested for harmful substances. Everything is handmade at our factory in Germany.

dormiente: Good for you and good for the climate.

NATURAL PILLOWS

THE RIGHT PILLOW

is essential for your sleep quality

The right choice of pillow is a decisive factor for healthy sleep and is often underestimated. In addition to the orthopaedic aspects of the correct position of the cervical spine, there are also factors such as a cosy feeling or bed climate regulation: the right pillow makes all the difference.

With **natural materials** and the right shape, your pillow not only supports your sleep, but also your wellbeing.

Our pillows have one thing in common. The covers are made from the best natural materials! The **OUTER COVER** of hemp knit fabric, containing 52% hemp, 28% organic cotton and 20% Lyocell (Tencel™), is washable up to 60°C – thus enabling optimum bed hygiene. The 100% organic cotton **INNER COVER** protects the filling and the natural latex core.

The right pillow for every type of sleeper.

FILLED PILLOWS

FLEXIBLE AND ADAPTABLE

The pillow filling can be easily removed and thus precisely adapted to your requirements.

SHAPED PILLOWS

THE PERFECT SHAPE

Orthopaedic neck-support pillows are ergonomic and thus adjust precisely to the shape of the cervical spine. A variety of moulded cores – some with multiple uses – designed to suit different body shapes and different sleeping positions.

Whether to choose a **filled pillow** or a **shaped pillow** is often a matter of personal need and preference. Your dormiente retailer will be happy to help you make the right choice!

FILLED PILLOWS

FLEXOPILLO MED

optimal adaptability to all types of head and neck shapes

FILLING 100% natural latex flakes

WEIGHT

OF FILLING approx. 1,600g (in 40x80cm)

HEIGHT approx. 13cm

- + very springy and elastic
- + gentle bounce to help relaxation of muscles
- + suitable for allergy sufferers

FILLED PILLOWS

CHIROPILLO MED

orthopaedic support of the spine

FILLING 100% natural latex flakes

WEIGHT

OF FILLING approx. 750g wide chamber, 550g narrow chamber

anatomically shaped pillow with integrated head hollow

CORE 100% natural latex shaped core

HEIGHT approx. max. 10cm

- + orthopaedic neck support pillow
- + soft, adaptable pillow
- + simply turn pillow to alternate between 2 different support heights
- + made with GOLS certified natural latex

ORTHOPILLO MED

plain design elastic shaped pillow

CORE 100% natural latex

HEIGHT approx. 12cm

- + orthopaedic neck support pillow
- + all-round suitability due to statistically derived height for support of neck and spine
- + offers soft and responsive nesting feeling
- + particularly suitable for people who sleep on their side or back
- + made with GOLS certified natural latex

NATURAL DUVETS

NATURAL DUVETS AND NATURAL MATTRESS PADS

Sleeping in pure natural materials

Healthy sleep under pure natural materials? That's why we developed our natural duvets. They keep you cosy and warm in winter and pleasantly cool in summer, so you can sleep soundly at any time of year.

The right choice of duvet is a decisive criterion for healthy sleep. This can be quickly recognised by the fact that around 70% of the microclimate in the bed can be defined by the duvet.

The microclimate is largely determined by the water vapour absorption capacity of the duvet material. The moisture released during sleep must be quickly absorbed by the environment. Natural fibres can do this in a much better and healthier way than synthetic materials like polyester or polyamide fibres. This is why you won't find any polyester wadding or the like in our natural duvets, just pure, pollutant-tested natural fibres of the best origin.

For duvets with animal hair filling

The asymmetrical, so-called mummy quilting has a head and foot zone, so the duvet adapts perfectly to your body shape. The asymmetrical vertical quilting on the left and right keeps the duvet snug and you nice and warm.

For duvets with plant fiber filling

The check pattern is used when the duvets contain particularly light plant fibers such as kapok. This pattern keeps the fibers in better shape during washing, ensuring even temperature regulation.

Quilting for mattress pads

For mattress pads we use a smaller check pattern that ensures durability and stability of the pad.

2 DUVETS = 4 SEASONS

Cleverly combined!

There are no limits to the possible combinations: simply button together two dormiente duvets of your choice and you're perfectly equipped for all temperatures.

NATURAL DUVETS

NATURAL HANF

made from pure plant fibres

FILLING 100% hemp

WEIGHT SEASON approx. 150g/m²

OF FILLING ALL SEASON approx. 440g/m²

- + high moisture absorption

dormiente[®]
HOME COLLECTION

HOME COLLECTION

SUSTAINABLE HOME TEXTILES

Imagine slipping into your fresh, comfortable bed after a long day. You pull up the duvet and snuggle into the pillows. Pure relaxation. This is the precise feeling our natural bedding provides. Made from organic, renewable materials such as hemp and cotton, it consists of more than just simple textiles. Our dormiente home textiles not only score high due to their outstanding functional properties, but also their outstanding ecological sustainability. As you'd expect, we've attached great importance to sustainable materials, even for the smallest items in the bedroom.

NATURAL BEDDING

Sleep soundly with bedding from our Home Collection – made with love, care and the finest organic materials. No trace of chemicals or allergens: we use 100% natural materials. The Home Collection bedding made from organic materials is gentle on your skin and creates a healthy bed climate – for entirely refreshing sleep.

HEMPCOLLECTION

HEMP BED LINEN

MATERIAL 100% hemp
